

EC 3 STEPS SERVICE PROGRAM FOR TRADING PLATFORMS

London, 2016

INTRODUCTION

At Economic Consultants we have been working for more than 30 years helping companies and individuals with funding, investments and all sorts of financial assistance. We have a global network with Partners in more than 20 countries, enabling us to find support for companies in all sectors.

In order for our clients to enable themselves to get into a position where they actually can present their project or company, get attention and achieve what they are looking for, we have established the *EC 3 Steps Service Program for Trading Platforms*.

Our different funding programs are meant to fit all companies, also listed ones. You decide yourself which program you would like to choose and, we will carry out the different tasks connected to the choice for you.

When both parties have agreed to the scope we will enter into an agreement, the *EC 3 Steps Service Program for Trading Platforms*, determining the steps and details for how we together shall achieve the goal set forth.

TRADING PROGRAMS

Our Trading Programs consists of different options, depending on what the client is looking for, amount of the funding/investment and risk. We are currently promoting two Platforms, The Tier One Programs and the E-wealth Programs.

For more specific information please see the Brochure describing the products. The terms given can change at any time. We normally get a new quota valid from the first starting month in any given year.

The Tier One Program is a complex platform requiring quite some paperwork to get into position for an invitation to participate.

The E-wealth Platform consists of three Programs. One for Listed companies offering a very nice return. Then we have the 50 weeks trading window offering 100% ROI and the Lunar Program offering 6% per

month ROI. There is also a special design for the Indian Market offering trading in Indian currency.

AMOUNTS

We can work with amounts from US\$ 250,000 to 1B. 250K will gain access to our E-wealth Platforms with three different options. To enter into the Tier One Program you will need a minimum of US\$ 100,000,000.

AGREE ON PROGRAM

The first step in the process is to agree on what program and amount to invest. Having determined that we will agree on a time schedule, which again will be depending on how well prepared the client is, and how fast he will be able to run the KYC and Application process.

The whole idea is to get ready to enter on the first day of any given month apart from December and January.

PROCESS

The process is pretty straight forward and will work smoothly if you follow our guidance.

EC CUSTOMER INFORMATION SHEET (CIS)

You start by completing The EC CIS and return it to us with the documents requested attached to the CIS. We do the KYC and if positive we move on to the next step.

EC NSNC NDA

We will issue and send you our NDA for you to sign and return to us.

PROGRAM AGREEMENT

We will then send you the *EC Service Agreement for Trading Platforms*. The agreement contains all details that have been agreed and regulates the terms and conditions for the transaction(s) ahead of us. With that in place we are ready to move to the next step.

APPLICATION FOR PARTICIPATION

Before we move on the agreed fee(s) must be paid. You will receive a fairly simple application form to complete and sign (we will normally complete the form for you). When/if we have an OK from the trader the trading agreement will be issued based upon the platform you have chosen. You sign and return the agreement.

STARTING POINT

We must make sure that we are good to go with the funds in place one week at least before the First working day in the month.

PROFITS

In the Trading Agreement you have given information as to where profits will be sent and how often, again depending of the platform of choice.

TRADING ACCOUNT

For being able to participate you must have an account enabled for trading. Most major triple A rated banks have that on offer, but some of them can be expensive for you to use.

We have a shortlist of banks offering professional trading accounts. We will recommend which bank to use (very few are willing to take on US citizens) and we will assist you with the KYC and get you safely through the process.

The process is quite thorough and a bit more demanding than the round we go to achieve an invitation to participate.

COST AND FEES

We will always look at any request presented to us for free. After having done the initial KYC with a positive result, we will suggest a program. All travel and accommodation cost will be paid by the client when and if necessary, and only for participants in the Tier One Programs.

STARTING FEE

We are charging a starting fee. This is to cover the time we spend doing KYC and organising all documents needed to be positioned to participate. The fee is GB£ 5,000.

OPENING A BANK TRADING ACCOUNT

If the applicant not have a trading account offered from his own bank, or if that offer is too expensive, we can assist in opening a trading account. We never ask the client to transfer money directly to any trader. The money should always remain in the clients own account and under his control. We have several options, also for US citizens. The Fee is GB£ 5,000.

SUCCESS FEES

We will charge a success fee based on the amount invested and normally a minimum of 5% of any amount paid to the client.

PAYMENT TERMS

Starting Fees and Travel Cost will be invoiced and paid up front. If opening of a trading account is added to the agreement that fee will be invoiced prior to handing over the initial application documents.

The success fee will be calculated and invoiced when the trader publishes the returns and it is payable on the same day the client receives his profits.

HOW TO GET STARTED?

Just download from our website or write to us on info@economic-consultants.com to get the **EC CIS for BG's Trading Platforms etc.**, complete the CIS and send it to us. We will have feedback for you normally within one week!
